

INNER GROOVED COPPER TUBE MILL MODEL:MIU-30

This is the sensational machine in the copper tube industry to overturn the manufacturing system of conventional ACR tube. MORI is proud that we could supply total 14 mills to 7 countries in the world and can support in the part of the new ACR tube development to achieve the energy saving and the resources saving.

Main Specification

Product:	Inner Grooved Tube for Air Conditioner
Tube Size:	$\phi 9.52 \sim \phi 6.35\text{mm} \times t0.3 \sim t0.5\text{mm}$
Material:	Copper Strip
Welding:	High Frequency Induction Welding
Weld Speed:	Max.200m/min

MODEL:MIU-30
